

UPM ORIGIN OF WOOD INFORMATION

Company UPM-Kymmene Corporation

Site UPM Kymi, Finland

Information gathered from **1.1.2012** to **31.12.2012**

The purpose of this document is to confirm that our company is aware of the European Union Timber Regulation (No: 995/2010) and meets the compliance obligations.

In the regulation, companies that first place timber or timber products on the European market are referred to as 'operators'. Companies, which buy or sell timber or timber products already placed on the EU market, are referred to as 'traders'.

UPM acknowledges its role as a 'trader' and an 'operator' within the EU Timber Regulation and has taken all appropriate actions to comply with its requirements. 'Traders' are required to keep basic traceability information, indicating from whom they purchase and to whom they sell their products. As an operator UPM has a Due Diligence System (DDS) in place, which includes all the elements which are clearly outlined in Article 6 of the EU Timber Regulation.

| UPM Kymi, Finland | | | | |
|---|---------------------|---|--|--|
